

### OUTSTANDING PERFORMANCE ALLOWS YOU TO SAFELY THAW TOMORROW'S PRODUCT TODAY!

The Traulsen Even-Thaw is designed to thaw frozen product rapidly & safely under temperature-controlled conditions. This reduces water usage by eliminating water bath thawing of frozen product. The Even-Thaw also helps save time in operations, as 24 hours in our Even-Thaw is equivalent to 3-5 days in a walk-in refrigerator. Food safety is made easy with our Even-Thaw!

### 1

#### REDUCE COSTS

- Safe, even thawing means less food waste
- Saves water by eliminating the need for water bath thawing
- Eliminates the need for walk-in thawing, gaining valuable storage space

### 2

#### SUPPORT FOOD SAFETY

- The frozen food's effect on cabinet air temperature regulates operation, so the cabinet temperature never rises above 41°F
- Designed to safely thaw up to 300 lbs. of frozen product per section in 24 hours or less
- Automatically returns to refrigerator operation once product is thawed
- Improved food safety, removing human error with automatic, hands-free operation

### 3

#### ENJOY PEACE OF MIND

- The advanced SMART CONTROL delivers accurate & reliable temperature control, eliminating the need for a defrost time clock & significantly reduces risk of food-borne illness
- LED display featuring a power failure alarm that detects the exact time of power failure, the time power was restored, and the cabinet temperature at power restoration
- Factory-trained service representatives available nationwide
